

LUCAS GARCIA VALDIVIA

Guaynabo, PR | (787) 507-1711 | garcial@bu.edu | www.linkedin.com/in/lucas-garcia-valdivia-32b4072b3

EDUCATION

Boston University, Boston, MA | *B.S. Biomedical Engineering* | **May 2028** | GPA: 3.4/4.0 | **Dean's List** (Top 30%) |

Colegio San Ignacio de Loyola, Guaynabo, PR | *High School Diploma* | **May 2024** | GPA: 3.73/4.0, Honor Roll |

EXPERIENCE

V2A Consulting Firm | *WeServe Fellow* | **Incoming Summer 2026**

- Participating in an 8-week consulting program developing/implementing solutions for nonprofit management challenges (strategy, operations, marketing, finance).
- Assigned to real pro bono projects with V2A consultant teams; delivering strategic support to strengthen nonprofit capacity and impact.
- Completing training curriculum + workshops; mentored by V2A management consultants on end-to-end consulting engagements.

Virtuoso AI | San Juan, PR | *Technology Department Intern* | **June 2025 – July 2025**

- Designed and proposed an AI-powered call system to replace web contact forms; internal modeling projected a reduction in response time from hours to under **60 seconds** and an estimated **~390% increase in lead-to-sale conversion**; **presented to the CEO** and leadership team.

Isla Lab Products LLC | San Juan, PR | *Biomedical Manufacturing Shadowing* | **August 2025**

- Diagnosed and resolved electrical and mechanical failures in a **Roche Cobas 8000** analyzer after a year of idleness, performing systematic troubleshooting and recalibration to restore full diagnostic functionality for clinical laboratory use.
- Completed formal safety training on laboratory protocols, medical equipment handling procedures, and regulatory compliance standards for biomedical manufacturing environments.

PROJECTS

Deskinator – *Autonomous Desk-Cleaning Robot* | **September 2025- December 2025**

- Served as **Project Leader** for a team of engineers designing and developing an autonomous desk-cleaning robot. The project ranked among the **top designs** in the course out of **30+ competing teams** while remaining well below the **\$200 budget limit**.

JustAMoment – *Truss Design Project* | **September 2025 - December 2025**

Applied MATLAB for structural analysis to evaluate multiple design configurations, optimizing structural efficiency under strict budget and material constraints. Selected the most efficient configuration based on simulation results and validated the predictions through real-world testing.

TempSafe - *Temperature Alert System* | **January 2025 – May 2025**

- Developed an Arduino-based temperature monitoring and alert system using a TMP36 sensor, digital output signaling, and embedded logic to trigger LED and buzzer alerts upon detection of abnormal temperature thresholds.

LEADERSHIP & INVOLVEMENT

Kappa Sigma Mu-Psi Fraternity | *Brother* | **January 2025 – Present**

- Led recruitment initiatives targeting Latino students, organizing **10+ rushing events** to increase Latino membership.

Society of Hispanic Professional Engineers (SHPE) | *Member* | **2024 – Present**

- Actively engaged in engineering-focused professional development and industry networking programs.

Certifications

Global Career Accelerator | **Data Analytics Track** | *Certified by OpenAI, Intel & Grammy Awards* | **Incoming Summer 2026**

- Hands-on real-world Excel/Tableau projects for business analytics and visualization

Emergency Medical Technician (EMT) | *Certified by Boston University* | **September 2025 – December 2025**

- Completed **150+ hours** of training in patient assessment, trauma care, airway management, breathing emergencies, cardiac/AED protocols, altered level of consciousness, obstetrics/childbirth, and prehospital emergency procedures.

SKILLS

Programming: Python, MATLAB | **Design & Automation:** Onshape (CAD), n8n, API integrations | **Technical:** Soldering, Arduino | **Languages:** English and Spanish (fluent)
