

LUCAS GARCIA VALDIVIA

Guaynabo, PR | (787) 507-1711 | garcial@bu.edu | [LinkedIn](#) | [Portfolio](#)

EDUCATION

Boston University, Boston, MA

B.S. in Biomedical Engineering, Concentration in Machine Learning | **May 2028** | GPA: 3.5/4.0 | **Dean's List** (Top 30%)

EXPERIENCE

New Era Compounding Pharmacy | Carolina, PR | *Market Expansion & Digital Health Strategy* | **April 2026 – Present**

- Created and presented a product planning document for a proposed physician-patient digital health platform, outlining app features, user roles, lab/imaging storage, wearable integrations, and medication adherence tools.
- Designed an AI-assisted market intelligence workflow for the CEO to track drug shortages, identify revenue opportunities, and prioritize strategic actions.
- Conducted LATAM market expansion analysis, comparing competitors, tax considerations, launch markets, acquisition targets, required documentation, and new product opportunities.

V2A Consulting Firm | San Juan, PR | *WeServe Fellow* | **June 2026 - August 2026**

- Selected for V2A's WeServe Fellowship (**4% acceptance rate**), one of Puerto Rico's top consulting firms, to deliver pro bono strategic support across nonprofit management challenges in strategy, operations, marketing, and finance.
- Embedded within V2A consultant teams on live client engagements, developing and implementing solutions to strengthen nonprofit organizational capacity and measurable impact over an 8-week program.

Virtuoso AI | San Juan, PR | *Technology Department Intern* | **June 2025 – July 2025**

- Identified a critical inefficiency in client acquisition workflows and designed an AI-powered solution to replace web contact forms; internal modeling projected response time reduction from hours to **under 60 seconds** and an estimated **390%** increase in lead-to-sale conversion; presented findings and recommendations directly to CEO and leadership team.

Isla Lab Products LLC | San Juan, PR | *Biomedical Manufacturing Shadowing* | **August 2025**

- Diagnosed and resolved electrical and mechanical failures in a **Roche Cobas 8000** analyzer after a year of idleness, performing systematic troubleshooting and recalibration to restore full diagnostic functionality for clinical laboratory use.

PROJECTS

Computational Blood Coagulation Modeling | *BU Differential Equations Research* | *Prof. Matthew Moore* | **Spring 2026 – Present**

- Proposed an ODE-based extension of the Hockin-Mann coagulation model to evaluate clotting risk in Factor V Leiden patients during cardiopulmonary bypass surgery, incorporating clotting protein levels, surgical variables, anticoagulant exposure, Monte Carlo simulation, and Sobol sensitivity analysis.

Deskinator | *Autonomous Desk-Cleaning Robot* | **September 2025 - December 2025**

- Served as **Project Leader** for a team of engineers designing and developing an autonomous desk-cleaning robot. The project ranked among the **top designs** in the course out of **30+ competing teams** while remaining well below the **\$200 budget limit**.

LEADERSHIP & INVOLVEMENT

Kappa Sigma Mu-Psi Fraternity | *Brother* | **January 2025 – Present**

- Directed recruitment initiatives, organizing **10+ rushing events** to increase Latino membership.

Society of Hispanic Professional Engineers (SHPE) | *Member* | **2024 – Present**

- Actively engaged in engineering-focused professional development and industry networking programs.

CERTIFICATIONS

Global Career Accelerator - Data Analytics | *Certified by OpenAI & Intel* | **June 2026 – August 2026**

- Analyzed real company datasets to surface insights and deliver data-driven recommendations using data transformation, summarization, visualization, A/B testing, and XLOOKUP.

Emergency Medical Technician (EMT) | *Certified by Boston University* | **September 2025 – December 2025**

- Completed **150+ hours** of training in patient assessment, trauma care, airway management, breathing emergencies, cardiac/AED protocols, altered level of consciousness, obstetrics/childbirth, and prehospital emergency procedures.

SKILLS

Analytics & Programming: Python, MATLAB, Julia, C++, Excel, Tableau

Tools & Automation: Onshape (CAD), GitHub, GitHub Actions, n8n, API integrations

Languages: English and Spanish (fluent)
